

VISIONAIRE™ 5

5 LPM At-Home Oxygen Concentrator

Maintenance-Free Design

With a unique design that eliminates preventative maintenance schedules, get the most of your stationary inventory without having to worry about extra patients visits and replacement filter costs.

CAIRE INVESTS IN QUALITY

Design changes in November 2013 drastically increased overall durability, and improved the reliability of valves and sieve beds. This has reduced failure rates and has set a new standard for high-performing 5 LPM concentrators.

REDUCED COST OF OWNERSHIP

Combining low failure rates with no preventative maintenance schedule creates a high-performing stationary with a low total cost of ownership.

LIGHTWEIGHT AND POWER-EFFICIENT

At only 30 lbs (13.6 kg) with side and top handles, the VisionAire™ 5 is lightweight and easy to deliver. Its 290 W power draw at all settings is incredibly efficient.
